PETITION TO REVOKE POWER OF ATTORNEY UNDER 37 C.F.R. §1.36(a)

Sir:

Petitioner has an assigned partial interest in the above-referenced patent application directed to RNAi, as well as various continuations and divisionals of the above application. Petitioner granted a Power of Attorney to counsel chosen by one of the co-assignees of the application to represent its interests and serve as its attorney in connection with this application.

However, that counsel, Wolf Greenfield & Sacks, P.C., has acted contrary to Petitioner's interests and instructions in connection with the prosecution of this application, in favor of the interests and instructions of other co-assignees of the application. As a result, Petitioner has brought suit against counsel to have counsel removed on account of the conflict of interests among the co-assignees of the application, and that action is currently pending. Petitioner has also filed suit against the co-assignees, and that action is also currently pending. Copies of the complaints in these two suits, as well as related documents, were submitted in the instant application in an Information Disclosure Statement filed on July 10, 2009.

PATENT

On July 14, 2009, two shareholders of counsel executed declarations filed in support of an opposition to a preliminary injunction requested by Petitioner in the lawsuit against the co-assignees. (Declaration of Helen Lockhart (Exhibit A), and Declaration of Patricia Granahan (Exhibit B.)) Both of those declarations include statements and opinions that are contrary to the interests of Petitioner. 37 CFR 10.63 dictates that counsel shall withdraw when counsel will be a witness. 37 CFR 10.66 also dictates that counsel shall not continue multiple employment if the clients' interests diverge, unless consent has been obtained after full disclosure of the possible effect of such multiple representation. Such a full disclosure has never been made, and to date, counsel has refused Petitioner's requests to withdraw, even in the face of the lawsuit against counsel and the conflicting instructions and interests of the co-assignees of the application.

An owner of less than the entire interest in a patent application does not have the sole right to control the prosecution of the application. *In re Goldstein*, 16 USPQ2d 1963 (Dep. Ass't. Com'r. for Patents 1988). Accordingly, each partial assignee has the right to choose an attorney to represent its interests in the application. *Id.* As explained above and in the complaints and related papers filed with the Information Disclosure Statement on July 10, 2009, current counsel is not representing the interests of the Petitioner, and is in fact acting adverse to Petitioner.

Petitioner requests that the Patent and Trademark Office revoke the current Power of Attorney from Petitioner, and authorize new counsel to represent Petitioner's interests. A Revocation of Powers of Attorney and Appointment of New Attorneys, and a Statement Under 37 CFR 3.73(b), are being submitted concurrently to take effect upon grant of the instant Petition.

Please charge the petition fee set forth in 37 C.F.R. §1.17(f), and any and all fees associated with the Petition to Revoke Power of Attorney, to Deposit Account No.02-2135.

Respectfully submitted,

Dated: July 20, 2009
